Frontend	React.js · Redux Toolkit · Tailwind CSS · HTML5 · CSS3
Backend	Node.js · Express.js · Django · PHP · REST APIs · JWT Auth
Data & Cloud	PostgreSQL · MongoDB · Supabase · Firebase · AWS · Docker · CI/CD

EXPERIENCE

- Flutter & React Native Developer — TruckMitr Corporate Services · Noida

Oct 2025 – Present

 - Shipped production React Native logistics app to Play Store — live GPS tracking, role-based auth, and real-time FCM push notifications for truck owners, drivers, and business clients.
 - Built TMConnect Flutter app from scratch — telecaller & field-agent tool with role-based dashboards and smooth animations; deployed cross-platform in under 3 months.
 - Delivered pixel-perfect, performance-optimised UIs ensuring consistent experience across all Android form factors.
- Flutter Developer (Contract) — Easyian Outsourcing Pvt. Ltd. · Noida

Apr 2025 – Sep 2025

 - Reduced app load time by ~30% by optimising REST API queries, database indexing, and Redux state management across React Native and Flutter projects.
 - Built cross-platform apps with real-time Supabase/PostgreSQL data sync, PHP REST APIs, and secure role-based access — deployed to Android and iOS.
- App Developer — Frontend UI/UX (Contract) — Codelevate Pvt. Ltd. · Raipur

Oct 2024 – Mar 2025

 - Designed and built pixel-perfect, responsive UI for a MERN-stack e-learning platform — increased user engagement by 40% through intuitive layouts, interactive content, and a project-showcase system.
 - Led end-to-end UX flows for onboarding, course browsing, and dashboards across student, instructor, and admin roles; reduced drop-off by standardising component patterns and micro-interactions.
